

New Marina 360° will have your fish swimming in innovation

MONTREAL, Canada – January 4, 2013 – Rolf C. Hagen Inc.'s Marina aquatic brand is proud to introduce Marina 360°, an innovative desktop aquarium that combines convenience and fun.

Refreshing and Practical Design

Marina 360° is a refreshingly cool and original desktop aquarium with a lot of very practical features that are designed to make setup and maintenance so easy.

In terms of styling, Marina 360° is a uniquely crafted aquarium with a sleek housing unit placed discreetly at the back, allowing virtually unobstructed viewing from almost all angles.

Small in Size, Big on Features

Small in stature (only 25.4 x 25.4 cm), the 10-litre aquarium occupies minimal space, making it an ideal aquatic showpiece on countertops, desks and other small spaces—in homes or offices. It includes an integrated pump and advanced LED lighting that allows you to create a bright daylight setting or blue-tinted nighttime ambiance.

The pump draws water from the bottom and cycles it back at the top in a nice gentle flow, providing water circulation at a constant rate of 150 litres per hour.

Two filter cartridges collect organic waste and provide biological filtration to keep the water healthy for fish and plants. They can be pulled out to rinse or replace.

The aquarium can be set up as a cold, temperate or tropical environment. A heater (sold separately) can be installed in the housing unit.

Key Features:

- 10 litre (2.65 US gal) aquarium
- Removable cover
- Efficient water circulation pump
- Integrated filtration system
- Custom LED lighting
- Two filter cartridges
- Three water setup options
- Includes biological aquarium supplement & water conditioner
- Size: 25.4 cm x 25.4 cm
- Product Item #: 12850
